 Wheal (optional, for throwing the mag, or you can use hand-building techniques)

 Water. To moisten and work with the clay.

 Silp: A mixture of day and water used for joining pieces and smoothing.

 Kills for firing the mug.

 Glaze: For decorating and scaling the mug.

 Kills for firing the mug.

 Ridle for gring them.

 Safety Gear: Dust mask, gloves, and safety glasses, especially if working with dry clay or sanding. anding

Directions:

- Sunding

 Directions:

 1. Preparing the Cay

 Wedging: Kneed the day to remove air babbles and active a consistent texture.

 Preparing: If you're using pre-made day, ensure it a adequately main and workable.

 2. Shaping the Mug

 Hand-Sunding.

 * Bases find not a slab of day or use a coil method to create the base of the mug. Cut and shape it into a cricele or oval.

 While Roll out a city slab or coil to form the asks of the mug. Attach the sealbeite the base ming slip and securing sechniques berattining both surfame before applying slip.

 * Smooth: Use in spouge and year fingers or stude to emotion the mug. Attach the walk-tie the base.

 1 throwing in the Wheel of saing a portury wheel?

 Constraing Plane is bailed day on the wheel and creater 2.

 Throwing: Open the day and pull up the scalls to shape the mug. Trim the base and shape the mag to your decired form.

 Adding Bandbee Create a handle by relling out a coil or using a pre-turned handle by a fining out a coil or using a pre-turned handle by a fining out a coil or using a pre-turned handle.

 **Standle Shape: Roll out a coil or slab and shape it into a handle.

 Attachment Score and apply slip to both the handle and the place where it will attach to the mug. Frindy press the bandle in place and amough the bandle and the place where it will attach to the mug firmly press the bandle in place and amough the list.

 **Driving.

 **Allow the mug to dry completely in a cool, dry place. This cost take several days. Desure it dries every to prevent crosching.

 **Place the dried mug in the kills for the bisque fring. This initial fring handless the clip but doesn't glace it. Follow the clay's recommended fining schedule.

 **Oliow the mug to dry completely in a cool, dry place. This count count is headen on the bisque fring. This initial fring handless the clay but doesn't glace it. Follow the mug has socied from the bisque firing, apply give. You can dip. Bessee the day but doesn't glace it.

- To Slow the clay's recommended firing schedule.

 6. Clasing

 Once the mag has cooled from the bisque firing, apply giane. You can thu, breath, or spery the glaze onto the mag. I muser the glaze does not cover the hottom of the mag. I muser the glaze does not cover the hottom of the mag to avoid sticking to the kin shelf.

 7. Glaze Fring.

 Place the glazed mag back in the kin for the glaze firing. This firing will much the glaze and give the ring a shiney, durable familt. Pellow the glaze manufacturer's instructions for temperature and firing time.

 8. Rinishing Touches

 After firing, imprect the mag for any rough spots. You can send any ough edges or polish the mag if necessary.

 6. Enjoy.
